Experience

System/Business Analyst — Oct. 2025 – Aug. 2026
simplesurance — *Berlin, Germany*

- Drive the insurance projects for Allianz Group across Europe, interpreting diverse regulatory requirements and ensuring compliance.
- Author and maintain comprehensive documentation, optimize APIs and create Swagger specifications.
- Review developers work post-QA to guarantee alignment with business rules and requirements.
- Engage stakeholders to define project scope, negotiate changes and maintain alignment.
- Facilitate rapid onboarding and clarity of sprint objectives for development teams.

System/Business Analyst — May 2024 – Sep. 2025
Maxinum Consulting Group — *Almaty, Kazakhstan*

- Led three development teams of mid-senior front-end and back-end engineers, ensuring smooth collaboration and on-time delivery.
- Evaluated UX/UI designs and crafted user-focused interfaces by analyzing experience and metrics from other products.
- Gathered user pain points and requirements through cross-project interviews to inform product decisions.
- Operated in Agile environments, utilizing Kanban and Scrum methodologies to deliver projects effectively and efficiently.

Project Manager — Jan. 2024 – May 2024
Technology Commercialization Center — *Almaty, Kazakhstan*

- Formulated a dynamic business model and performed market analysis.
- Supervised a team of three interns, delegating tasks efficiently.
- Orchestrated an exhibition attended by 36 potential investors.

Internships

Product Development Analyst — Oct. 2023 – Feb. 2024
Degusto Coffee — *Almaty, Kazakhstan*

- Analyzed the operations of four coffee shop chains and eight independent cafés.
- Discovered five novel preparation methods tailored for the Kazakh market.
- Conducted customer development interviews with 30 participants to refine offerings.
- Identified target audience segments and crafted market positioning.

Intern Product Manager — Sep. 2023 – Nov. 2023
KMF.kz — *Almaty, Kazakhstan*

- Conducted A/B usability testing with 50 participants to optimize user flows.
- Increased registration conversion by 10%.

Projects

Halyk Nan | *ERP for Bakeries, Almaty* 2025

- Performed comprehensive system and business analysis and launched an ERP system within one month.
- Solution is currently used by two bakery facilities in Almaty.

TOQ | *Power-Bank Rental (B2C), Almaty* 2025

- Conducted market research from scratch and developed WhatsApp and Telegram bots for the rental service.
- Planned firmware updates for charging stations and redesigned business processes tailored to the Kazakh market.
- Service supports 2,000 monthly active users across 16 power-bank stations.

Open Heart X\Cardia | *Healthcare, Wisconsin, USA* 2025

- Conducted a full business analysis from scratch for a B2C project targeting patients with pacemakers and cardiologists.
- Collaborated with a leading Milwaukee cardiologist to adapt the project for the U.S. market in compliance with HIPAA.
- Project successfully deployed at Froedtert Pleasant Prairie Hospital.

Catholic Sports | *Community Sports Platform, Denver, USA* 2025

- Designed the architecture of a mobile application and web admin panel for the Catholic Sports community.
- Implemented dynamic scheduling, media management for PR, a checklist builder and other features.
- Drove adoption across the entire community (1,000 weekly active users), increasing positive feedback by 50% and reducing host and PR workloads by 70%.

Tapgo CRM | *Subscription Sports CRM, Almaty* 2025

- Conducted end-to-end analysis and designed a CRM system for an existing children's sports subscription app.
- Integrated the app with the CRM, delivering transparent margins and financial reporting, streamlined lead management, flexible compensation settings for coaches and convenient scheduling.
- Implemented multi-tenancy, significantly increasing efficiency; platform is now used by nine sports schools.
